Subject: Monitoring Working Team (ECV)

Good afternoon Roshni,

The AB617 Community of Eastern Coachella Valley Monitoring Working Team (MWT) had questions regarding USEPA Notice of Violation (R9-CAA-22-1007) issued to Desert View Power. The MWT is requesting staff from USEPA attend the next CSC meeting to discuss the violation. I would like to connect you to Payam Pakbin, Program Supervisor at South Coast AQMD, who is organizing the next MWT CSC meeting and can coordinate logistics. Please let me know if there is anyone else you would like us to add to this discussion.

Sincerely,
Jack Cheng

Subject: FW: Monitoring Working Team (ECV)

Hi Jack,

Please see the request from the ECV Monitoring Working Team regarding the NOV issued to Greenleaf by EPA.

I think the next step is to reach out to EPA and connect them with the MWT.

Thank you,

Pavan

Hi Pavan,

Please see the original request below. In the MWT meeting, Mariela asked how they can be more engaged when these types of NOV's are issued in ECV.

Subject: RE: Monitoring Working Team (ECV)

Hi everyone, One of the topics for our next MWT should be Greenleaf. One of the staff from Green leaf reached out (emailed) to me last week to discuss monitoring and the tribal regulations that they have to work with regarding air monitoring. I have not responded yet but I will respond soon to say that our MWT will check-in as a team to review the topic.

They are sending this as a follow up to my request during a CSC meeting in April. I had asked them to help support our monitor placement. Since that time a Notice of Violation was produced from the USEPA regarding their facility. We should discuss this.

I'm free most of Monday/Tuesday next week and evenings from 5-6. I'm flexible after that, but generally try to be home around 6ish.

@Matthew, How is your availability?

Best, Ryan

Hi Mariela,

Thanks for reaching out. We are happy to work with Ryan and Matthew to set up the next Monitoring Working Team (MWT) meeting. Myself and staff are also available for one-on-one meetings if you have specific questions. Is there any particular topic you are interested to get an update on, or are you asking for a general update on CAMP implementation?

A few items that were discussed in the last MWT meeting as potential topics for future MWT meetings were:

- a demonstration of the air quality sensor data dashboard (this dashboard provides data access and visualization for the air quality sensors that have been deployed in ECV as part of AB 617 CAMP implementation);
- a Q&A (or a workshop) on all other data visualization dashboards (this could be combined with the first suggested topic); and

- perhaps a follow up on CARB's proposed monitoring plan for pesticides (at the moment CARB is looking to secure locations for sample collection). If there's any other topic you are interested please discuss with MWT co-leads and let me know.

Ryan and Matthew, could you please get in touch with Mariela and let's discuss topics and dates/times for the next MWT meeting. The next CSC meeting is scheduled for October 27th.

All the best,
Payam

Hello All,

I hope all is well. The last time we spoke was about a month ago and I wanted to ask for any new updates and the potential need for a meeting.

Best.

Mariela
